INTRODUCTION

The 3 Day First Aid at Work Course is the qualification required if a person wishes, with approval from their employer, to act as a First Aider in the workplace environment.

This qualification is approved by Health & Safety Education Approvals Ltd (HSEA) since 1st October 2013 and previously for 28 years by the HSE since 1985 under the Health & Safety (First Aid Regulations 1981.

To assist employers choosing to use P.F.E. First Aid Training Services Ltd as its training provider in terms of “due diligence” - the HSEA will provide, free of charge, a certificate to indicate that due diligence has been monitored and verified through their approval processes.

This certificate can be downloaded from the P.F.E. Website, or on request to PFE via email.

The 3 Day course normally runs over 3 consecutive days of 6hrs duration (total = 18hrs). However the course is flexible and can be run over any time duration to suit an employer’s specific requirements e.g. related to shift patterns etc.

Two aspects of flexibility need to be taken into consideration:

1. Once the course starts, irrespective of the format the course must be completed within a maximum period of 9 weeks.
2. The smallest taught part of the course cannot be less than 2hrs duration.

P.F.E. First Aid Training Services Ltd deliver this course throughout the U.K.

The course can be run on an employer’s own site were suitable training facilities exist.

THE SYLLABUS

The Course syllabus is laid down in the Approved Code of Practice of the Health & Safety (First Aid) Regulations 1981.

The syllabus, currently must be taught within the remit of the ACOP, although this may change in the future.

P.F.E. provide an appropriate full colour A5 First Aid Handbook for each candidate attending its courses. The Handbook contains the following aspects of the HSE syllabus:

1. Introduction to First Aid at Work & Role of the First Aider
2. Basic Anatomy & the importance of basic hygiene.
3. Know how to deal with an unconscious casualty.
4. Administer CPR / Competency in use of AED / Choking
5. Deal with a wounded or bleeding casualty / shock
6. First Aid for minor injuries
7. Recognition of major illness: Diabetes / Epilepsy
8. Soft tissue injuries: Sprains / Strains/ Contusions
9. Fractures / Spinal Injuries / Chest Injuries
10. Burns / Scalds
11. Eye Injuries / Irrigation
12. Poisoning / Anaphylaxis

The BSU course is a strongly recommended 3 hour course to be taken at the end of year 1 and end of year 2 of the 3 year certificate. This course enables candidates to refresh their life saving skills and to remain competent and feel more confident in the application of their First Aid skills.

Employers have a duty under the Health & Safety (First Aid) Regulations to ensure that additional training of First Aiders is catered for and the BSU course facilitates this recommendation.
